Notice About Our Bridge Center Building

Dear members and friends of Unit 530,

It is with some sadness to tell you that after sixteen years we must leave our current Bridge Center building by the end of the year. We have been notified by the Project Manager of the Dunes on Monterey Bay that they will be proceeding with development in our area at the beginning of 2020. We have begun the process of looking for a new facility that will meet our needs with the primary objective of maintaining a dedicated bridge center.

The coming months will be busy and exciting. As we develop our prospects and plan for the future of the Monterey Bridge Center, we will continue to keep all of you informed. If you have any questions, please feel free to ask!

Susan Mazzei

Unit 530 President
